

Data Uploading Set Up

Step 1: Install My S3 Browser

In a chrome browse, google My S3 Browser and click on the first link.
Or go directly to the chrome-web-store and search for my S3 browser

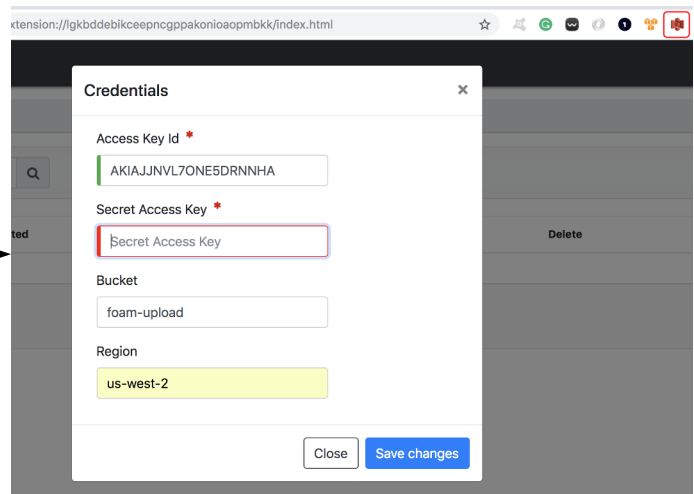

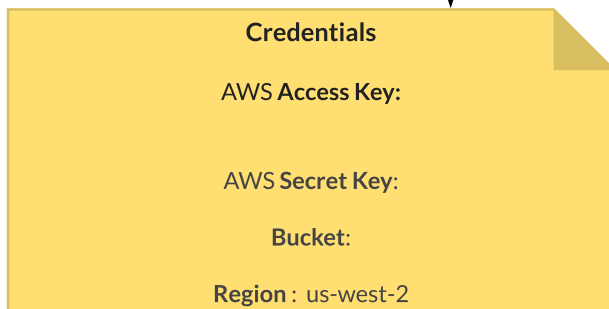

Click Add to Chrome

Step 2: Enter AWS Credentials

Click on the s3 logo that will now appear in your browser (next to where you enter a web address)

Add your credentials
(window pops up automatically)

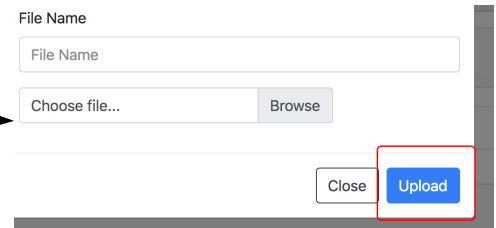

Step 3: Upload File to S3 Bucket

Click Upload File Button

Choose File and Hit Upload!

You should see this:
